

## **This is a summary of the decision of the DPC**

The Data Protection Office received an official complaint from Complainant against Respondent regarding the use of CCTV cameras. The complainant stated that his neighbour had installed a camera facing towards his premises, which he believed was recording his private activities without consent. He further mentioned that this is causing his family significant distress.

Subsequently, the Data Protection Office wrote to the Police to seek assistance for investigating this complaint and to conduct a site visit at Respondent's premises to verify the camera as to whether the CCTV footage shows viewing outside Respondent's premises.

By way of a letter, the Police informed the office that the CCTV camera was capturing images of the respondent's entrance, the stairs and porch of the building inside his premises. It was also found that a signage was displayed in front of the respondent's house. The Police also enclosed the site visit report together with the letter.

### **The Data Protection Commissioner has decided as follows:-**

In view of the above, the enquiry is closed to the satisfaction of all parties under section 6 of the Data Protection Act (DPA).
